"Colours must be thought, dreamed, imagined"
Gustave Moreau to Henri Matisse

colours & ideas

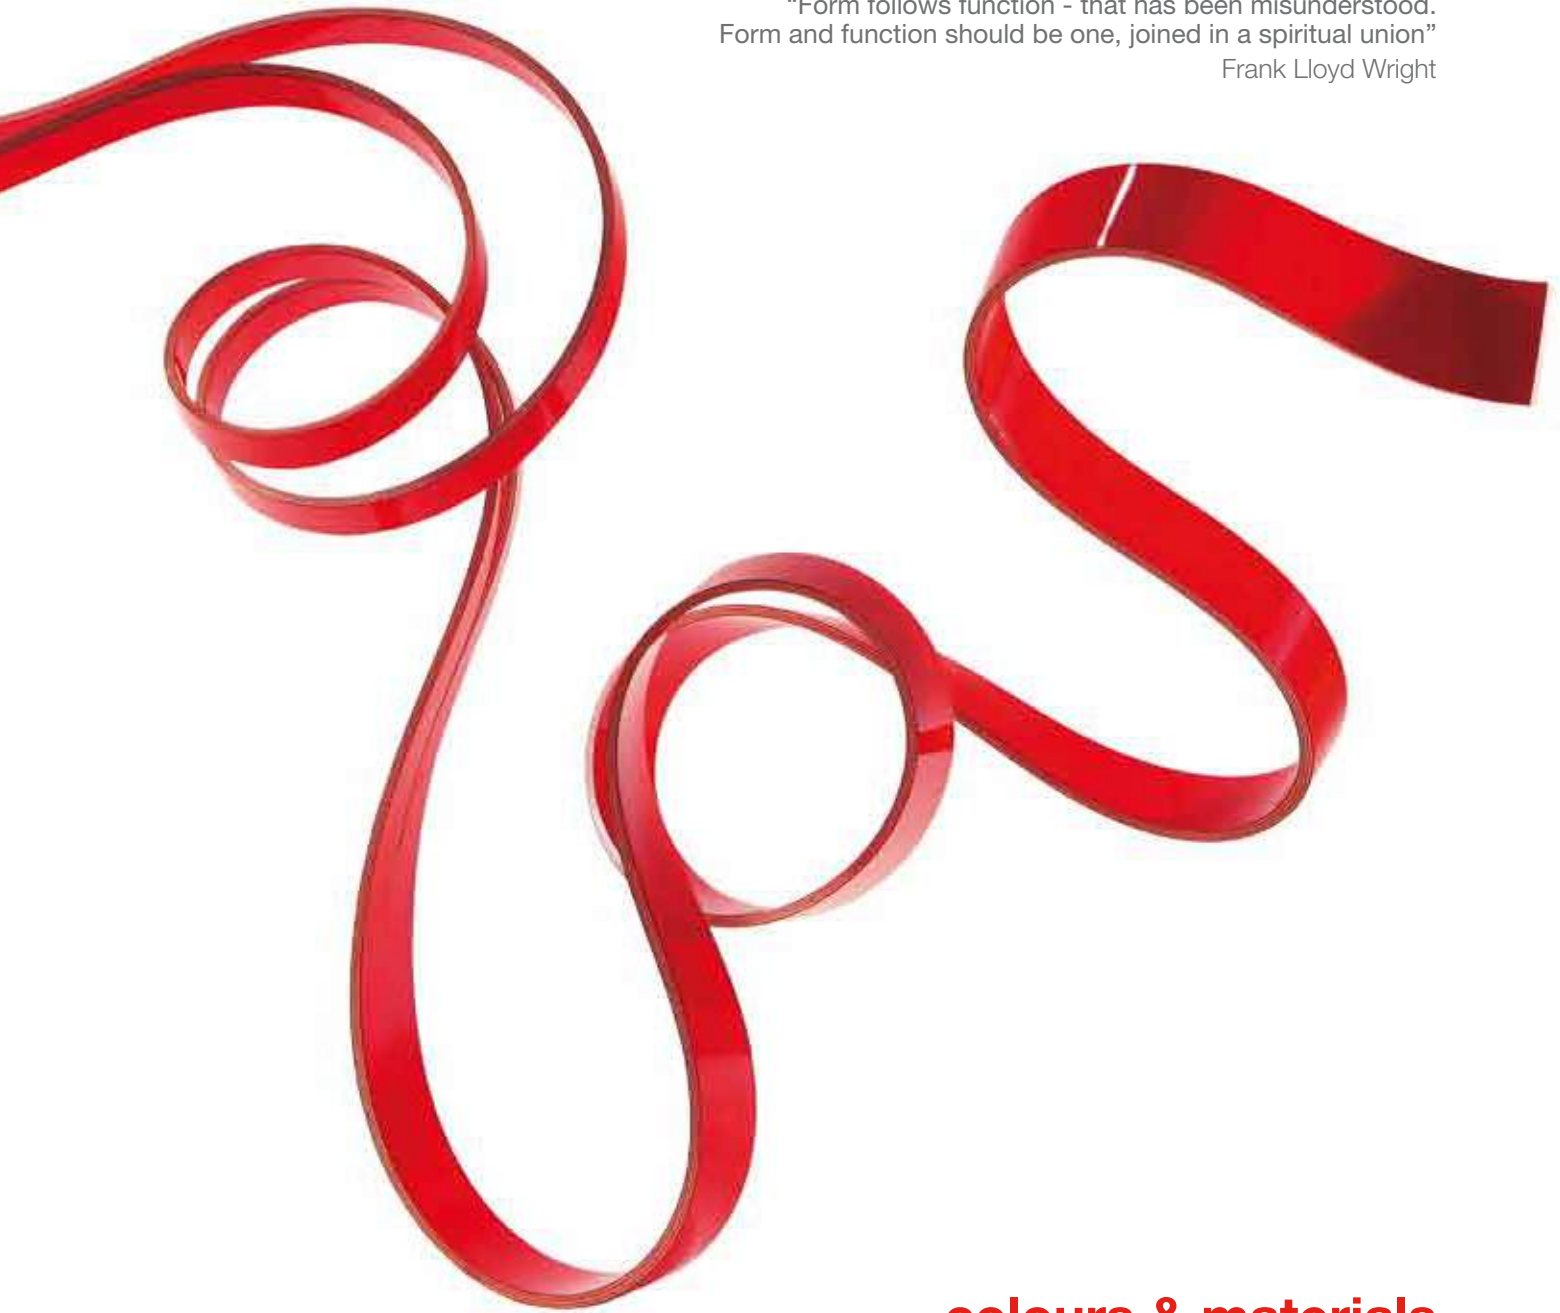

Because every colour is a feeling, an idea recreated by
the artist, an illusion captured in the artist's work.

And that's **Formica® Collection** surfacecolours,
a world bursting with ideas and feelings.

"Form follows function - that has been misunderstood.
Form and function should be one, joined in a spiritual union"

Frank Lloyd Wright

colours & materials **the essence of good design**

From that first idea, that first draft, that first image, the Formica® Collection is there for you. This is why we put Formica Collection surfacecolours in your hands. Colours made real in materials of high quality, design and durability. The perfect combination for the perfect result.

Versatility and exclusivity are the Collection's main features. Contemporary colours, unique finishes, a complete resource, full of inspiration.

The Formica Collection is now within your reach. A practical, relevant resource to help you create outstanding environments.

Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE *by* FORMICA GROUP

Colors

Formica® Colors, harnessing the creative power of colour in one system.

With a focus on the world's style tendencies Formica Group strengthens today's and tomorrow's trend colour families: introducing a new era of architectural greys - tinted, naturalised and warmed; elegant neutrals that build the perfect base for bright accents in limey yellows, energetic red and fresh greens; fashionable violets that lead the way to the return of blue.

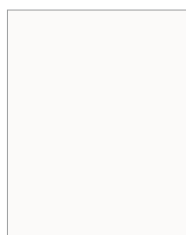

Formica® Laminate

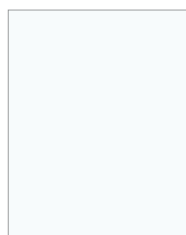

THE ORIGINAL HIGH PRESSURE LAMINATE *by* FORMICA GROUP

Premium Colors

By adding a dimension of depth, textures create not only a visual but also a tactile sensation - essential for perfect style. The surface finishes in Formica® Premium Colors provide an endless range of possibilities from the trendy high gloss of AR Plus® to the playful, geometric MicroDot; from the elegance of Sculpted to the multi-level attraction of Rigato. These textures are exclusively developed for truly contemporary and unique architectural environments.

ColorCore® provides another dimension in decorative surfacing, offering designers creative opportunities beyond traditional laminates.

The through-colour material gives limitless choice in creating beautiful surface and edge treatments. The hard wearing characteristics of ColorCore deliver good looks in the most demanding of applications.

New colours and enhanced surface finishes offer more variety and creative options to the range.

Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE *by* FORMICA GROUP

Patterns

Formica® Patterns reflect today's driving influences. A typical visual of the digital age, MODE is breaking the boundaries and opening the way to mass customization. There's a new generation of architecturally inspired and highly constructed shapes, represented by DOGBONE, which is truly versatile in its tone-on-tone-colourations yet full of character. GEO, orderly and chaotic at the same time, is a perfect reflection on our "networking" world. We make mixing and matching really easy as all are based on shades of the Formica® Colors range.

Premium Patterns

Mode provides the ultimate in creative potential from an 'off the shelf' pattern. Three scales offer different perspectives, from 'textile' to boldly geometric looks.

Positive and reverse options give even more choice.

The timeless appeal of dot graphics is updated through a random layout to offer a fresh look. Select from the promoted offer above or create your very own combinations using any Formica® plain colour with NCS, RAL or PMS dots.

Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE *by* FORMICA GROUP

Woods

The Formica® Woods range is taken to the next level with extraordinary layouts, scales and trendy colourations. Woods return in a new look and character: more natural, unfinished and full of imperfections. Expressive graining is important, enhanced by contrasting colourations. Sapwood and heartwood features create sophisticated surfaces. The elegant matt ticking of Naturelle finish provides an important near-natural look and high-gloss AR Plus® adds a touch of luxury.

Real metal surfaces in gold, copper, bronze, aluminium and steel colourations give an exclusive and authentic touch to any environment. Unique textures help create signature interiors and individual solutions. Artisan surfacing techniques such as scratching, sculpting or embossing enhance the grace and beauty of this natural material and take it to the highest aesthetic level.

Surface Finish Codes

Description	Designation	Code
AR Plus®	AB	AB
Gloss	GLS	90
Matte 58	MAT	58
Metallic	Metallic	99
MicroDot	MIC	MC
Midgrain	MGN	47
Naturelle	NAT	NT
NDF	NDF	11
Quarry	QRY	75
Rigato	RIG	RT
Sculpted	SCU	SP
Softmat	SMT	73

The choice of surface finish is important functionally as well as aesthetically. The following textures are ideally suited to vertical and light-duty horizontal applications, where the laminate will not be in contact with objects that may damage the surface: Rigato (RT), Gloss (90), Naturelle (NT), NDF (11), Softmat (73).

Compact Promoted Thicknesses (CGS Grade):

Single Sided Compact: 2, 2.5, 3 mm

Double Sided Compact: 4, 6, 8, 10, 12, 13, 16, 18, 20 mm

The choice of surface finish is important functionally as well as aesthetically. The following textures are ideally suited to vertical and light-duty horizontal applications, where the laminate will not be in contact with objects that may damage the surface: Rigato (RT), Gloss (90), Naturelle (NT), NDF (11), Softmat (73).

Product description

Formica® Laminate

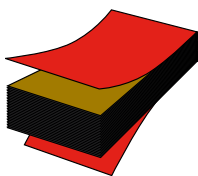

THE ORIGINAL HIGH PRESSURE LAMINATE *by FORMICA GROUP*

Formica® High Pressure Laminate (HPL) is manufactured through fusing multiple layers of impregnated paper under high pressure and temperature to create a hard wearing, durable and hygienic surfacing material. The Formica® Colors, Patterns and Woods ranges are high pressure laminates which are available in horizontal grade postforming (HGP) as standard. Flame retardant HPL (VFP grade) is also available on request.

Formica® Compact

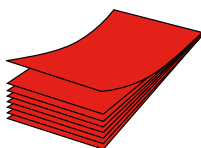

STRUCTURAL LAMINATES *by FORMICA GROUP*

Formica® Compact is a high pressure structural laminate, built up from multiple layers of kraft paper to produce a laminate in thicknesses from 2mm to 20mm. It has a decorative face on both sides and is ideal for interior use in washroom cubicles or locker doors, wall panels or laboratory furniture. It is particularly suited to use in high humidity, high impact areas. With a density of 14 kg/m² (for 10mm thickness), Compact is impressively strong and damage resistant and has remarkable structural stability, requiring no substrate support in thicknesses over 6mm. Formica® Compact is certified by the CE Mark to meet or exceed conformity with European consumer safety, health and environmental requirements.

ColorCore® *by FORMICA GROUP*

SOLID COLOUR LAMINATES

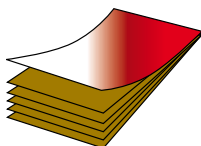

ColorCore® by Formica Group is a dramatic and exciting surfacing material, in 1.3mm thickness, that features the high performance characteristics of Formica® decorative laminates with the added dimension of solid through colour. This homogeneous colour obviates the dark line sometimes associated with laminate edges and permits decorative effects to be created by engraving and sandblasting. ColorCore® in Matte 58 texture increases levels of wearability and reduces the visual impact of chips and scratches. ColorCore is ideal for applications such as counter tops, point-of-sale units, doors and work surfaces.

ColorCore is available in decors selected from Formica Colors range. Due to the special characteristics of ColorCore, exact matches between ColorCore and Formica Colors may not always be possible. We recommend the comparison of actual samples prior to specification or fabrication.

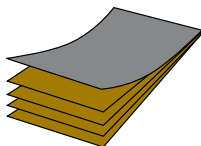

PREMIUM GLOSS FINISH *by FORMICA GROUP*

AR Plus® by Formica Group in Colors and Woods offers a hassle-free, durable high gloss laminate with twice the surface performance of standard gloss laminate. The AR Plus® technology delivers a gloss surface that is highly resistant to scuffs and mar abrasions, extending the gloss laminate life cycle. AR Plus high gloss laminates are 1.2mm thickness postforming grade. Due to the increased thickness of this material a minimum radius of 15mm is recommended. Flame retardant AR Plus laminate (FAR grade) is also available on request.

DecoMetal® *by FORMICA GROUP*

METAL LAMINATES

DecoMetal® by Formica Group high pressure laminate is created using real metal foils over a laminate core to create stunning metallic laminates that are durable but very light compared to sheet metal. Textures and patterns are applied to some metallic laminates to create outstanding effects. A complete range of striking colours, patterns and finishes is available. Nominal thickness varies depending upon metallic foil and texture.

DecoMetal® laminates meet the requirements of EN438:2005 Grade MTF with IMO/MED and USCG fire requirements approval. Please request specific details.

Product grades

This Collection incorporates the following grades of decorative laminate each with its own performance characteristics. These grades conform to EN438:2005.

Formica® Laminate

Grade HPL/EN 438-3 HGP	Horizontal, General Purpose, Postforming high pressure decorative laminate. (0.7mm nominal thickness).
Grade HPL/EN 438-3 HGS	Horizontal, General Purpose, Standard high pressure decorative laminate. (0.7mm nominal thickness).
Grade HPL/EN 438-3 VFP	Vertical, Flame retardant, Postforming high pressure decorative laminate. (0.7mm nominal thickness).

AR Plus® by Formica Group

Grade PAR	Abrasion-resistant, High-gloss, Postforming high pressure decorative laminate.
Grade FAR	Flame retardant, High-gloss, Standard high pressure decorative laminate.

PAR and FAR do not appear in the EN 438 grade classification system.

ColorCore® by Formica Group

Grade HPL/EN 438-9 BTS	Coloured core, Standard Grade, Thin high pressure decorative laminate.
-------------------------------	--

Formica® Compact

Grade HPL/EN 438-4 CGS	Compact, General Purpose, Standard high pressure decorative laminate. EN 13501 Euroclass C-s1,d0
Grade HPL/EN 438-4 CGF	Compact, General Purpose, Flame Retardant high pressure decorative laminate. EN 13501 Euroclass ≥ 6 mm B-s1,d0 < 6 mm B-s2,d0

DecoMetal® by Formica Group

Grade HPL/EN 438-8 MTF	Metal, Flame retardant, Thin high pressure decorative laminate.
Grade HPL/EN 438-8 MTP	Metal, Postforming, Thin high pressure decorative laminate.

MTF & MTP grades are recommended for vertical applications.

DecoMetal® laminates meet the requirements of EN438:2005.

Grade MTF with IMO/MED and USCG fire requirements approval. Please request specific details.

ISO 14001:2004

IMO-MED

The Company retains the right to change specifications at any time without prior notification. Patterns given in this publication have been matched as closely as printing conditions allow. We do recommend, however, that you order samples before final specification, fabrication or installation.

The information given in this brochure is correct at the time of publication. However, as we have a policy of constant product development and improvement, product details may change in the future.

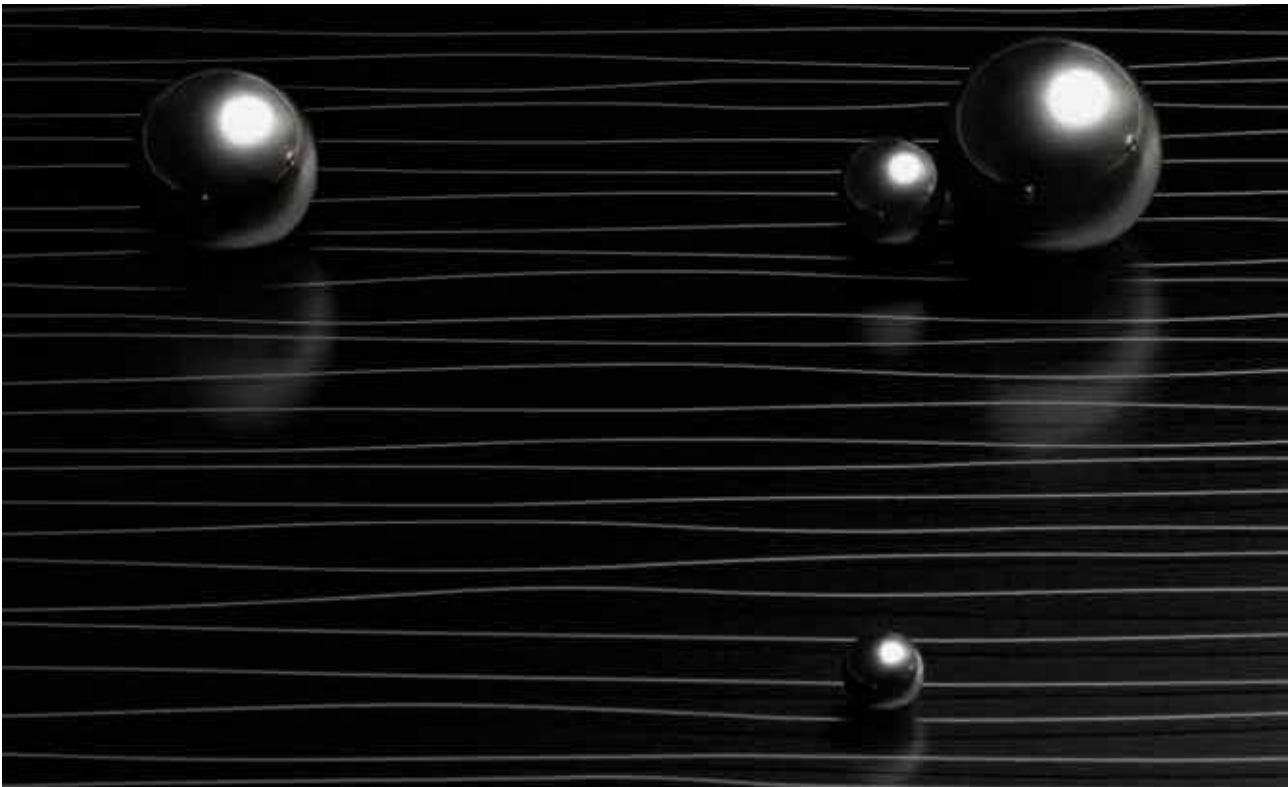

Formica Group is committed to making sustainable principles and practices a part of everything we do. We strive to adhere to the highest ethical standards as we advance in our efforts to protect vital resources for future needs.
